DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on March 22, 2004 has been entered.

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: The declaration does not contain the signatures of all five joint-inventors.

Inventorship

The request to correct the inventorship of this nonprovisional application under 37 CFR 1.48(a) is deficient because:

- (a)** The statement of facts by an inventor or inventors to be added or deleted does not explicitly state that the inventorship error occurred without deceptive intent on his or her part or cannot be construed to so state;
- (b)** It lacks the required fee under 37 CFR 1.17(i); and
- (c)** It lacks the written consent of any assignee of one of the originally named inventors.

The Request for Continued Examination includes a new, unsigned declaration containing the following newly added inventors: April Hixson-Goldsmith and Murali Ramasubramanian.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(f) he did not himself invent the subject matter sought to be patented.

Claims 1 to 14 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. The Request for Continued Examination, filed on March 22, 2004, does not provide any proof or facts which would show that newly added inventors April Hixson-Goldsmith and Murali Ramasubramanian contributed to the subject matter of claims 1 to 14.
